PRINTING DIVISION

LINE	SUMMARY AND GENERAL ANALYSIS	ACTUAL 1959-60	ESTIMATED 1960-61	PROPOSED 1961-62	CHANGE FROM 1960-61

GENERAL ANALYSIS

Objectives

The Printing Division produces the necessary printing for state agencies and the Legislature, manufactures textbooks for the public elementary schools, operates the Legislative Bill Room, and operates a Documents Section where sales are made of state documents and California Administrative Codes. The Documents Section also distributes material required under the Library Distribution Act.

Program and Performance

This division was established in 1850 by the Legislature and its work consisted largely of purchasing printing for the Legislature and state departments. A plant was established in 1872. In 1884 a constitutional amendment was passed whereby the state plant could print textbooks. Since those dates the work of the Printing Division has grown with the State and there are presently approximately 700 employees employed by this division, a reduction of 80 people since April 1, 1960, divided into a daily 3-shift operation.

The Printing Division has been producing an average of $10,000,000 worth of printed material annually for the past and current fiscal year. However purchase of some completed textbooks by the State Department of Education direct from publishers will bring a decline in estimated sales volume to $7,400,000 in the 1961-62 fiscal year, with further reduction in plant personnel.

A total of $5,900,000 of textbook work was billed in 1959-60 fiscal year; $4,300,000 is the expected total for 1960-61 fiscal year, and a further decline to $2,500,000 is forecast for 1961-62 fiscal year.

Financing of this division is on a revolving fund basis, with no annual appropriation for support. No augmentation for the Printing Fund, either for new equipment purchase or additional working capital is proposed this year. The amount budgeted for equipment is limited to the amount of depreciation to be accrued during the fiscal year.

GENERAL ANALYSIS

Objectives

To provide centralized services for state agencies in the operation of an automotive pool; centralized purchase and distribution of supplies; and maintenance and repair of communication equipment, office machines and automotive equipment.

Program and Performance

In order to provide the most economical and efficient services to state agencies in 5 general service areas, the folowing divisions of this fund have been established:

Central Stores

By stocking office supplies and other items most generally used by all state agencies and utilization of the principle that larger purchases permit better prices, it provides economical purchasing service to state agencies. During the 1960-61 fiscal year a fully operating Los Angeles stores warehouse is being established from which state agencies south of the Tehachapis can obtain the same service as has been provided in Sacramento for many years. Better warehouse facilities are being obtained in San Francisco which will make it possible to better serve the expanding state complex in the Bay area. It is expected that sales will exceed $3,000,000 during the budget year. It is anticipated that by 1962-63 these changes will be fully self-supporting from revenues received from sales. To carry out this program a $23,051 augmentation is proposed.

Office Machines Repair

This unit provides office machine preventive maintenance service in Sacramento as well as overhaul and repairs to the approximately 7,600 state-owned typewriters, adding machines and calculators. Due to the increase of 600 additional machines coming under service, 2 additional positions are being added to this group.

State Automotive Pool

The state automotive pool provides efficient use of automobiles resulting in low costs to the State and state agencies. Garages in Oakland, Fresno and Los Angeles were completed in 1960 and required initial complements of equipment, inventory, gasoline, oil and automotive service supplies. In the current year 181 cars are being added to the pool by transfer from state agencies and purchase of new cars. Three hundred sixty-three cars will be replaced upon reaching 100,000 miles. In the budget year, no additional cars are contemplated, but 350 cars are expected to reach 100,000 miles of use and will be replaced. It is estimated that the 2,324 vehicles in the pool on June 30, 1962, will have been driven 36,500,000 miles—an increase of 2,500,000 miles over the estimated 34,000,000 miles for 1960-61. An augmentation of $192,710 is provided to finance the replacement deficit for automotive purchases and initial costs of the new state garages.

Radio Maintenance

The increased use of mobile radio equipment and expansion of the State's microwave system is placing a continual workload increase on the engineering staff of this function. The operation of 39 radio maintenance shops at various locations involve 61 radio-telephone technicians. Engineering service is provided to all state agencies having such equipment. The systems of the California Highway Patrol, Forestry, California Disaster Office, Department of Justice, Department of Corrections, Fish and Game, Water Resources, Beaches and Parks, and California Youth Authority involve 5,400 units of state-owned radio equipment.

Microwave system expansion is being planned to cover areas of the State not now being served. Plans are being made to provide, as a segment of the State's microwave system, a leg to extend from Eureka south to Santa Rosa. Another link is planned south from Loma Prieta Mountain in Santa Clara County to Los Angeles which would provide service to state agencies at Monterey, Salinas, San Luis Obispo, Santa Barbara, and Ventura. In the eastern part of the State, the microwave circuits now serving San Bernardino would be extended north through Owens Valley to Bishop. In order to maintain and serve efficiently the many state agencies and the added equipment being placed into service, 3 engineers, 8 radio-telephone technicians and 1 clerk are provided. An augmentation of $82,094 is proposed to implement this program.

Rented Buildings

The Department of Finance leases a building in Santa Ana which it has sublet to state agencies.

The total required augmentation after using prior augmentations and available surpluses is $256,000.

Totals	$14,076	$19,745	$22,657	$2,912 (14.7%)

GENERAL ANALYSIS

Objectives

The Soil Conservaton Development Fund was created by Chapter 1032, Statutes of 1949, as amended, with an appropriation of $1,000,000 to provide for the acquisition of soil conservation machinery, equipment, and buildings and rental thereof to soil conservation districts. Section 12.2 of the Budget Act of 1958 returned $400,000 of this amount to the General Fund in 1957-58 as the full amount was no longer required for operation of the fund. The fund is administered by the State Soil Conservation Commission.

Program and Performance

Equipment requests are investigated to determine whether there is appropriate need, to select suitable types, prepare purchase specifications, receive deliveries of equipment, and regularly inspect the operation and maintenance of equipment.

During recent years, federal surplus equipment has been available to soil conservation districts and the purchase of equipment for districts with state funds has decreased in volume. Loans are now made primarily for reconditioning and modifying the surplus equipment to adapt it for soil conservation use.

Department of Water Resources

WATER RESOURCES REVOLVING FUND

SUMMARY AND GENERAL ANALYSIS	ACTUAL 1959-60	ESTIMATED 1960-61	PROPOSED 1961-62	
SUMMARY				
EXPENDITURES	$16,833,314	$21,735,084	$23,440,773	$1,705,689 (7.8%)
Personnel man-years	1,676.2	1,896.2	2,054.8	158.6

GENERAL ANALYSIS

The organizational budget of the Department of Water Resources is financed through the Water Resources Revolving Fund from Support and Capital Outlay appropriations deposited therein. All personnel and operating costs are accounted here, while direct costs of acquisition and construction are accounted from Capital Outlay appropriations. See pages 633 to 670 for program explanations requiring these departmental expenditures.

DEPARTMENTAL ADMINISTRATION

The Departmental Administration is comprised of the executive staff including the Director, the Deputy Director, the Assistant Directors, and the Water Commission; certain special staff functions—the Legal Staff and the Public Information Office; the technical co-ordination of geology; and the supervision of safety of dams.

[a] Positions to be transferred to the Division of Operations in the 1961-62 fiscal year.

[b] Previously combined with the Division of Administration.

Department of Water Resources

WATER RESOURCES REVOLVING FUND—Continued

DIVISION OF ADMINISTRATION

The Division of Administration has responsibility for the functions of general office services, fiscal management, personnel management, administrative analysis, and rental property management.

The Division of Administration plans, organizes, and accomplishes the business management activities of the department and the administrative services necessary to support the engineering activities of the department. Incidental thereto is the recommendation of policies which bear on the efficiency, organization, fiscal responsibility, and personnel management of the department, and the development of procedures to carry them out.

Two additional positions requested for the Management Analysis staff are based on workload. The remaining position is a conversion of contract services from the Department of Finance. The service has been used full time since early 1958.

Administrative service will be provided to the newly activate Division of Operations and Maintenance with the establishmen of the positions of administrative assistant II and junior staf analyst, on assignment from the office of the Chief of the Division of Administration. These positions will be responsible fo planning, organizing, and accomplishing the administrative wor of the engineering division.

All new positions in the Services and Supply Branch ar based on added work requests.

A safety engineer position is being established in Personne Management to replace an engineering position on loan fro the Division of Design and Construction which was reclassifie to a training officer in 1960-61.

In the Fiscal Control Branch, continued emphasis on development of the accounting system and procedures in anticipatio of bond and utility accounting requires an additional supervising account clerk and 2 accountant I positions.

Department of Water Resources

WATER RESOURCES REVOLVING FUND—Continued

DIVISION OF RESOURCES PLANNING

The Division of Resources Planning is responsible for all phases of water resource investigation and planning within the department. The division also makes co-operative investigations with county and federal agencies on a cost-sharing basis, and performs investigations for other government agencies on a contractual basis.

The division functions through 3 branches: Project Development Branch, Engineering Services Branch and Special Activities Branch. The Project Development Branch conducts studies and investigations leading to authorization by the Legislature of project construction by the department. This includes area investigation and planning under the California Water Development Planning Program, co-operative investigations with local agencies, and major studies being made at the specific direction of the Legislature.

The Engineering Services Branch is concerned with the collecting, assembling, developing, and analyzing of all statewide basic water resources data and with providing the other branches and divisions of the department with technical assistance and supervision.

The Special Activities Branch conducts engineering investigations and prepares reports on aspects of water resources not covered by the other 2 branches. It is responsible for all water quality investigations undertaken by the department and for studies connected with local water problems in addition to other activities under the Water Code and federal statutes.

Although there are a number of positions included as proposed new in certain sections of the planning division for 1961-62, they are offset by proposed reductions in other sections. As a result there are no net new positions proposed for this division for 1961-62. The shifts result from increased needs for some specialties, and decreased needs for specialists in other areas.

DIVISION OF DESIGN AND CONSTRUCTION

The Division of Design and Construction is charged with the responsibility for the design, construction, and acquisition for all authorized state water projects. The division also has responsibility for the design and supervision of construction of hydraulic structures for other state agencies.

The proposed new positions are for the increased design activity for the California Water Development Program.

The reduction in the positions in the Right-of-way Acquisition Section is the result of an agreement with the Division of Highways whereby they will handle negotiations for the acquisition program.

The reduction of positions in the Construction Engineers Section occurs because of the phasing of the construction with the design and acquisition activities. This will not cause any cutback of personnel since the design activity is being expanded and excess construction personnel will be absorbed by this activity.

DIVISION OF OPERATIONS AND MAINTENANCE

The Division of Operations and Maintenance is responsible for the management, operation, and maintenance of the State Water Facilities. Prior to completion of projects under the Burns-Porter Act, its functional nucleus will consist of projects formerly carried in other divisions in the department: the former statewide financing or marketing studies, including engineering, economic, and power analyses; flood control activities, including maintenance, inspection, and repair, and the engineering and hydrologic studies related to activities of the Flood Operations Center; watermaster service; and operation of the department's heavy equipment pool and the mobile and telemetering communication systems.

Proposed new positions include the staffing of an executive office and provision for additional office services required with formation of a new division and decentralization of administrative services. Additional positions are required in the Water Program Management and Flood Operations branches on the basis of increasing workload and replacement of transferred positions; a new watermaster service requires an additional 9 engineering positions.

SOUTHERN CALIFORNIA DISTRICT OFFICE

The Southern California District is responsible for all departmental activities in San Luis Obispo, Santa Barbara, Ventura, Los Angeles, Orange, San Diego, Imperial, Riverside, San Bernardino, Inyo and portions of Kern and Mono counties. The district is presently organized under the district engineer into an Executive Staff, Administration Branch, Planning Branch and a Design and Construction Branch. The programs that are managed by the Planning Branch and the Design and Construction Branch in Southern California are closely parallel to the programs managed by the Division of Resources Planning and the Division of Design and Construction in Sacramento.

The 3 intermediate clerks and the key punch operator are provided to meet the increased clerical and electronic data processing workload.

The engineers are requested for the stepping up of design on the San Joaquin-Southern California aqueduct. The Whale Rock Project positions will be reduced because the project will be completed.

Prior year balance available	$163,544	$89,982	$30,914
Bonds redeemed	18,000	13,000	17,000
Revenue—interest on loans	18,438	19,932	19,610
Total Available	$199,982	$122,914	$67,524
Balance available in subsequent fiscal year	—89,982	—30,914	—67,524
TOTAL ALLOCATIONS	$110,000	$92,000	–

GENERAL ANALYSIS

This revolving fund was created by Chapter 1551, Statutes of 1949, to provide loans to districts and municipalities for sewage and drainage facilities. This fund consists of $1,000,000 appropriated thereto plus interest payments on loans.

Allocations are made to municipalities and districts upon approval of the State Water Pollution Control Board and the Director of Finance. Allocation for a loan to the South Bay County Sanitation District is pending.

Condition of Loans and Allocations Outstanding and Pending:			
Tahoe City Public Utility District	$21,000	$21,000	$19,000
Almonte Sanitary District	111,000	108,000	105,000

STATE OFFICE BUILDINGS FINANCED BY LOANS FROM TREASURY FUNDS

DEPARTMENT OF FINANCE OFFICE BUILDINGS

(Loans From State Trust Funds)

The State Building Construction Act of 1955 provides that the State Public Works Board may issue revenue bonds or certificates to provide funds to acquire or construct state office buildings when authorized by a separate act or appropriation of the Legislature. The buildings so acquired or constructed are to be leased by state agencies at a rental rate that will retire the bonds or certificates and provide for the payment of interest.

The State Public Works Board has entered into an agreement with the Board of Administration of the State Employees' Retirement System whereby that agency will purchase certificates to finance the construction of the 8 office buildings and the Los Angeles garage authorized by Chapter 1687, Statutes of 1955, as amended by Chapter 1647, Statutes of 1957, and the Budget Act of 1958.

Sites for the Sacramento, San Bernardino, San Diego, San Jose and Stockton buildings have been acquired. During the 1960-61 fiscal year, office buildings in San Francisco, Oakland, Fresno and Los Angeles were completed and occupied by state agencies. The Los Angeles garage was put into use in December, 1960.

Negotiations will be concluded during the 1960-61 fiscal year with the Retirement Board for financing the Stockton Office Building authorized by the Legislature in 1960. Construction of the San Diego Office Building has begun, and construction of the Sacramento Office Building is scheduled to begin in the summer of 1961. Provision is made to authorize expanding the size of the Sacramento building to accommodate the increased space requirements in this area.

It is proposed that additions to the existing Public Health Building in Berkeley be built to correct current office and laboratory space deficiencies and provide for future growth. Additional federal funds may be forthcoming to offset in part State cost of construction.

Anticipated completion dates are as follows:

San Francisco	June 1, 1960
Oakland	September 1, 1960
Fresno	December 1, 1960
Los Angeles	February 1, 1961
Los Angeles Garage	February 1, 1961
San Diego	November 1, 1962
San Jose	January 1, 1963
Sacramento	January 1, 1964
Stockton	January 1, 1964
Berkeley	April 1, 1964
San Bernardino	August 1, 1967

HIGHWAY PATROL ACADEMY AND CIVIL DEFENSE HEADQUARTERS BUILDING, SACRAMENTO

(School Land Fund)

Funds were loaned for the construction of the Civil Defense Headquarters and the Highway Patrol Academy from the School Land Fund under the provisions of Chapter 1597, Statutes of 1951. Under a contract between the Governor, Director of Finance, and the Commissioner of the California Highway Patrol, the costs of these facilities are being repaid with interest at 2½ percent per annum by the respective agencies in 240 equal monthly installments.

OFFICE BUILDING, SACRAMENTO

(Department of Agriculture Building Fund)

The Department of Agriculture Building was authorized by Chapter 11, Statutes of 1950 (First Extraordinary Session). Moneys were transferred from the Department of Agriculture Fund to the Department of Agriculture Building Fund on a loan basis to provide for construction of the building. Rentals are being paid to the Department of Agriculture Building Fund and returned to the Department of Agriculture Fund.

Construction of an addition to this building is scheduled to begin in the 1960-61 fiscal year.

EXPENDITURES	ACTUAL 1959-60	ESTIMATED 1960-61	PROPOSED 1961-62
Construct addition to Department of Agriculture Building [a]	–	$734,300	–

---

[a] Financed by loans from trust and other funds and not included in overall budget totals.

STATE OFFICE BUILDINGS FINANCED BY LOANS FROM TREASURY FUNDS—Continued

HIGHWAY PATROL OFFICE BUILDING, SACRAMENTO

(School Land Fund)

Pursuant to the authority contained in Chapter 11, Statutes of 1951, a loan was made available to the Department of the California Highway Patrol from the School Land Fund for the construction of a new office building in Sacramento.

The loan is being repaid in a series of 240 monthly payments together with interest at the rate of 2½ percent per annum on the unpaid balance. Provision for these payments is made in the support budget of the Department of California Highway Patrol.

DEPARTMENT OF MOTOR VEHICLES OFFICE BUILDING, SACRAMENTO

(School Land Fund)

Pursuant to the authority contained in Chapter 12, Statutes of 1951, a loan was made available to the Department of Motor Vehicles from the School Land Fund for the construction of a new office building in Sacramento.

The loan is being repaid in a series of 240 monthly payments together with interest at the rate of 2½ percent per annum on the unpaid balance. Provision for these payments is made in the support budget of the Department of Motor Vehicles.

BUSINESS AND PROFESSIONS BUILDING, SACRAMENTO

(Various Funds)

Constructed by advances from special funds and the General Fund in accordance with Sections 400 to 404 of the Business and Professions Code. For detail of repayment program see budget for Departmental Administration, Department of Professional and Vocational Standards.

OFFICE BUILDING, SACRAMENTO

(Veterans' Farm and Home Building Fund of 1943) [b]

This office building, constructed under the provisions of the Veterans Affairs Construction Fund Act of 1943, was completed in March 1957. Occupying agencies, including the Department of Veterans Affairs, will pay rent sufficient to repay the amount advanced by the Veterans' Farm and Home Building Fund of 1943, together with interest thereon.

An appropriation for acquisition and improvement of a parking lot was included in the Budget Act of 1956, subject to the provisions of the Veterans Affairs Construction Fund Act. The parking lot with a capacity of 153 automobiles was put into operation during the month of June 1958. Additional property is being purchased to increase the capacity of the parking lot by approximately one-third.

EXPENDITURES	ACTUAL 1959-60	ESTIMATED 1960-61	PROPOSED 1961-62
Acquisition of a site for a parking lot [a]	$53,507	$29,516	–

OFFICE BUILDING, SACRAMENTO

(Unemployment Compensation Disability Fund)

Investment of money from the Disability Fund was authorized by Chapter 1603, Statutes of 1951, for the construction and equipment of a building or buildings and appurtenant facilities for the use of the Department of Employment as a central office in Sacramento. Expenditures will be repaid through rental payments by occupying agencies.

Investment of money from the Disability Fund was authorized by Chapter 1814, Statutes of 1955, for the acquisition and development of a parking lot adjacent to the new central office building. Expenditures will be repaid through charges to persons using the parking lot.

OFFICE BUILDING, LOS ANGELES

(Unemployment Compensation Disability Fund)

Investment of money from the Disability Fund was authorized by Chapter 16, Statutes of 1954 (First Extraordinary Session) for the acquisition of real property and the construction and equipment of a building or buildings and appurtenant facilities for the use of the Department of Employment as a branch office in Los Angeles. Expenditures will be repaid through rental payments by the occupying agency.

PARKING LOT, SACRAMENTO

(State Employees' Retirement Fund)

Investment of money from the State Retirement Fund was authorized by Chapter 760, Statutes of 1959, for the purchase of real property and the cost of improvements thereon. The Retirement Board proposes to purchase a block contiguous to the Sacramento State Building which is to be constructed under the State Building Construction Act of 1955. This block would be developed as a parking lot for lease to the Department of Finance. Employee parking fees would reimburse the fund for its investment with interest.

EXPENDITURES	ACTUAL 1959-60	ESTIMATED 1960-61	PROPOSED 1961-62
Acquisition of a site for a parking lot [a]	–	–	$1,500,000

---

[a] Financed by loans from trust and other funds and not included in overall budget totals.

[b] Previous to June 30, 1960, this program was financed from Veterans Affairs Construction Fund which was abolished by Chapter 1902, Statutes of 1959, effective June 30, 1960.

GENERAL ANALYSIS

Objectives

The purpose of the San Francisco Port Authority is to promote the facilities and administer the operations of the Port of San Francisco, including the State Belt Line Railroad.

Program and Performance

This agency provides pier services for ships, assigns berths, rents office and wharf space, manages the Foreign Trade Zone, constructs and maintains harbor facilities, operates a railroad, solicits cargo, and publicizes the harbor. Users of port facilities pay tolls, dockage, demurrage, and rental charges set by the authority. *The operation of the port is entirely self-supporting.*

The harbor is publicized through press releases, publications, and advertising. Port traffic representatives solicit cargo for the port in California, and full-time regional representatives promote harbor business in Chicago, New York and Washington, D.C.

There is an office representing the authority in London for Great Britain and continental Europe.

GENERAL ANALYSIS

The San Francisco World Trade Center Authority was established by Chapter 1508, Statutes of 1947, to obtain land, buildings, works, and property and to operate and maintain them so as to foster and develop domestic and international trade for the benefit of the entire State.

The San Francisco World Trade Center was operated through June 30, 1960, under management of the San Francisco Bay Area Council, Inc., by contract. Through June 30, 1958, approximately 50 percent of the cost of operation was paid by the contractor from funds donated by businesses in San Francisco to assist the center to get started. The other half was paid from authority funds. Beginning with the 1960-61 fiscal year the San Francisco World Trade Center Authority has assumed full management and fiscal responsibility for the operation of the center and its program of trade promotion.

TOLL BRIDGE CONSTRUCTION AND REVENUE FUNDS

Toll bridge construction funds consist of proceeds from sale of revenue bonds, the issuance of which is authorized by the California Toll Bridge Authority; and, as in the case of the San Pedro-Terminal Island Bridge, such other funds as are provided by statute. At the present time all toll crossings are situated in the San Francisco Bay area except for the San Pedro-Terminal Bridge.

San Francisco-Oakland Bay Bridge:

While currently there are no outstanding bonds against the revenues on this structure, tolls are being continued to pay for the cost of alterations and improvements to the bridge authorized by Chapter 2316, Statutes of 1957, and the rehabilitation and improvement of the San Mateo-Hayward Bridge and the Dumbarton Bridge pursuant to Chapter 1784, Statutes of 1959.

In addition to the toll revenues on the San Francisco-Oakland Bay Bridge, the residue of bond proceeds, in separate funds designated as the San Francisco-Oakland Bay Bridge Construction Fund and Southern Crossing Engineering Fund, are being used respectively for improvement to the San Francisco-Oakland Bay Bridge and for studies of additional crossings.

Richmond-San Rafael Bridge:

The upper deck of this bridge was completed and opened to traffic September 1, 1956. The lower level was completed in 1957 and, after a period during which either one or the other was closed for construction purposes, both levels were fully opened to traffic on August 20, 1957. The construction fund for the bridge has been closed by transfer of the residual balance therein to the Fiscal Agent.

Carquinez Straits Bridges:

The additional Carquinez Bridge, financed by toll revenue bonds issued pursuant to resolution of the Toll Bridge Authority, was opened to traffic on November 25, 1958. At the same time the original bridge was closed for improvement and reconstruction of the approaches, being reopened to traffic on April 29, 1959.

By supplemental resolution on April 23, 1959, the authority authorized the issuance of $34,000,000 of toll revenue bonds to finance the Benicia-Martinez Bridge. Upon sale of the bonds, the proceeds were deposited in the Carquinez Strait Bridges Construction Fund and construction contracts for the bridge proper were immediately let. It is estimated that the bridge will be opened to traffic in August 1962.

San Pedro-Terminal Island Bridge:

Chapter 74/1958, as amended by Chapter 1961/59 (Sections 30680-30684 of Streets and Highways Code) authorized the construction of this bridge and provided for the financing thereof. The California Toll Bridge Authority by resolution dated June 6, 1960, authorized the issuance of not to exceed $7,000,000 of revenue bonds to complete the financing. It is anticipated that shortly after January 1, 1961, bonds in the amount marketable will be issued and all other financial arrangements made to permit the award of construction contracts. In the meantime, preliminary engineering and right-of-way acquisition activities are underway.

GENERAL ANALYSIS

Objectives

This program provides residential facilities for state college students, both single and married.

Program and Performance

State College Dormitory Revenue Fund:

In 1957 the Legislature approved an additional residence hall program to be financed partially by a loan from the Federal Housing and Home Finance Agency and the remainder from the State Construction Program Fund. All expenditures for construction were from appropriations from the State Construction Program Fund. On November 1, 1960, $14,173,000 principal amount of bonds, authorized under the State College Revenue Bond Act of 1947, were offered for bid. The proceeds from the sale of these bonds will be deposited in the State College Dormitory Construction Fund. The State Construction Program Fund will receive $14,000,000 in reimbursements from the State College Dormitory Construction Fund shortly after the sale of the bonds, estimated to be during the 1960-61 fiscal year.

The program provides capacity for 7,678 single students at the several state college campuses. Construction was completed on 15 units which began operation in September 1959. Construction of the remaining 21 units was completed and the units occupied in September 1960. All revenues accruing through the operation of the residence halls will be deposited in the State College Dormitory Revenue Fund.

Moneys in this fund are appropriated to pay the costs of operation and maintenance of the residence halls. After providing for current support expenditures, remaining sums, as required, shall be transferred to the State College Dormitory Interest and Redemption Fund for interest and principal payments on the outstanding bonds. Remaining balances in any of these funds after payment of all authorized charges shall remain available for expenses incidental to the program.

The 36 units will provide student housing capacity as follows:

College	Men	Women	Total
Chico State College	202	202	404
Fresno State College	202	404	606
Humboldt State College	202	202	404
Long Beach State College	202	202	404
Sacramento State College	202	404	606
San Diego State College	606	404	1,010
San Fernando Valley State College	–	202	202
San Francisco State College	405	405	810
San Jose State College	606	606	1,212
California State Polytechnic College:			
San Luis Obispo campus	808	404	1,212
Kellogg-Voorhis campus	404	404	808
Totals	3,839	3,839	7,678

These dormitories are 3-story units, each floor containing 101 rooms except at San Francisco where two 6-story buildings with 205 rooms per floor are provided.

College Auxiliary Enterprise Fund:

During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the Eightieth Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure.

On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges and fees are paid into this fund and are appropriated therefrom for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. These facilities provide housing for veterans or other students at established rates. The facilities operated by the College Auxiliary Enterprise Fund are listed below:

	Family Dwelling Units	Dormitory Units	
Chico State College	45	15	(30 individuals)
Humboldt State College	14	37	(37 individuals)
San Francisco State College	84	–	
San Jose State College	148	–	
Totals	291	52	

This budget reflects some changes in existing facilities due to the removal of some units due to age and condition and to make room for construction of permanent instructional facilities.

GENERAL ANALYSIS

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer insurance protection to employers at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees. The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

Expenditure estimates are predicated on the expectation of a continued increase in population growth and business activity. Changes in economic conditions may result in corresponding changes in the various items of expense.

GENERAL ANALYSIS

Objectives

This division assists eligible veterans in the acquisition of a farm or a home. It is a self-sustaining activity not supported by funds derived from taxation.

Program and Performance

Within the limitations set forth by law, the department may purchase a farm or home and in turn enter into a contract with the veteran for the sale of the property to the veteran. The cost to the department cannot exceed $15,000 in the case of a home or $40,000 in the case of a farm. The contract with the veteran provides for monthly payments which include interest currently computed at 4% and is usually written for a term of 20 years. Seventeen district offices have been established throughout the State to process applications for assistance under this program.

Property purchases by the department for resale to veterans currently average 1,350 per month. Past year purchases were at an average rate of 1,436 per month.

From 1922 to June 30, 1960, 161,984 homes and 2,141 farms were acquired for resale to veterans at contract values totaling $1,493,942,000. Included in the total are 119,603 properties financed for World War II veterans and 22,865 for veterans of the Korean emergency. To June 30, 1960, 52,626 contracts have been paid in full.

The Home Protection Plan of life insurance was started on December 1, 1938. Each veteran who is insurable is covered for the exact amount of the unpaid balance of his contract at a cost of 45 cents per month per $1,000 insurance. Effective February 1, 1960, these additional insurance benefits were added If insured under the plan, the applicant will be eligible fo additional insurance which provides for a cash payment to th spouse or other designated beneficiary of an amount equal t 20% of the unpaid balance of the purchase contract at date o death. If death occurs by accidental means before age 70, a additional cash payment equal to 120% of the contract balance but not to exceed $18,000, is made to the beneficiary. Coverag for these additional benefits is automatically extended to eac contract purchaser who is insured under the plan, unless th veteran notifies the department in writing that he does no desire this coverage. To June 30, 1960, 2,711 insured contrac holders have died and $11,491,570 paid in full settlement o balances due. This insurance provides family protection whic generally would not otherwise be carried. In addition to lif insurance coverage, insurance against fire and other hazards i required, the coverage being under blanket policies at the low rates of 48 cents (homes) and $1.20 (farms) per $100 for term of 5 years. Effective October 31, 1960, the Californi Veterans Board discontinued the program of reimbursing veterans for a portion of their fire insurance premiums. The tota cost of termination of this program is estimated to be $2,598,000

The 1961-62 budget is based on the assumption that funds fo farm and home purchases will continue at the current level o availability. The increased expenditures for bond interest reflec the cumulative effect of the growth of the loan program. Thes expenditures are more than offset by revenues received.

RETIREMENT FUNDS

JUDGES' RETIREMENT FUND

Receives contributions from the State in the amount of 2½ percent of the salaries for the justices of the Supreme Court and of the district courts of appeal, and judges of the superior and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund.

It is anticipated that there will be 542 members contributing to this retirement fund effective July 1, 1961. As of June 30, 1960, there were 69 members or their widows on the retirement rolls. It is anticipated that there will be 82 by June 30, 1961, and 92 by June 30, 1962.

TEACHERS' RETIREMENT FUND

The State Teachers' Retirement System is composed of approximately 253,420 active accounts. Approximately 24,633 members will receive retirement benefits during 1961-62. The present system became operative July 1, 1944.

Three major funds constitute the State Teachers' Retirement Fund. They are the Teachers' Permanent Fund, the Retirement Annuity Fund, and the Annuity Deposit Fund. Chapter 1583, Statutes of 1957, authorized the 3 funds to be combined for administrative purposes only. All other aspects of each fund are carried on as before.

The Teachers' Permanent Fund receives its revenue from members' contributions, contributions from the school district, interest from invested reserves, and yearly appropriations by the State from the General Fund. Retirement benefits from the fund are currently $600 per year to the person who is credited with 30 or more years of service, and who retires at age 60. A pro rata amount of that amount is paid for less than 30 years of service, and all benefits from this fund are usually discounted or improved actuarially if the member retires at an age less than 60 years or over.

The Retirement Annuity Fund receives its revenue from the members' contributions, interest from invested reserves, and yearly appropriations by the State from the General Fund. Under Chapter 1395, Statutes of 1955, school districts and employing state agencies are required to pay contributions equal to 3 percent of the certificated payroll to this fund. The retirement benefits from this fund are computed on the basis of the member's sex, total service, age at retirement, and the average salary earnable in the 3 highest consecutive years of earnings. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System benefits to local members on the basis of service credited by the local systems, and the amount of local fund allowances.

The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935 and July 1, 1944, together with the interest earned thereon. Chapter 1395, Statutes of 1956, has reopened this fund for additional member contributions. Members who have contributed to this fund receive an annuity at the time of their retirement but the benefit is based solely on the value of the members' accumulated contributions.

GENERAL ANALYSIS

The Department of Employment administers the state employment service and unemployment insurance and disability insurance systems. The department also performs certain functions as an agent of the Federal Government in connection with two programs; the Federal Unemployment Compensation Program under Title XV of the Social Security Act which provides unemployment insurance benefits for unemployed federal workers, and the Servicemen's Unemployment Compensation Act of 1958 which provides unemployment insurance benefits for unemployed ex-servicemen. A minor amount of funds is also provided in the 1960-61 fiscal year for termination of the Temporary Unemployment Compensation program. The payment of benefits under this program ended in July 1959.

The employment service program provides a job placement and counseling service for employers and workers, including a farm placement service. The program includes special services to veterans, older workers, youth, and physically handicapped persons, and provides for the collection and dissemination of labor market information.

The unemployment insurance program provides for payment of benefits to workers who are unemployed through no fault of their own; but are able to, available for, and actively seeking work, and meet the eligibility requirements of the Unemployment Insurance Code. These benefit payments are made from the Unemployment Trust Fund which is financed through a payroll tax on employers who are subject to the provisions of the California Unemployment Insurance Code. In the 1959 Session of the Legislature, Chapter 2035 was enacted to add Part 3 to the Unemployment Insurance Code to provide for extended duration benefits during periods when unemployment reaches a 6 percent level. These extended duration benefits are financed by an additional tax on all employers. Estimates of extended duration benefits and additional tax amounts are included as expenditure and revenue items for each of the 3 fiscal years.

The Unemployment Insurance Code provides for payment of disability and hospital benefits in 2 ways: either by the State from the Unemployment Compensation Disability Fund, financed by a 1 percent tax on wages paid by workers in employment subject to provisions of the California Unemployment Insurance Code; or by voluntary plans as provided by the code.

The budgetary requirements of the major programs are based on workload—unit time calculations determined from past experience as modified by analysis. The workload data for the Disability Insurance Administration and the Unemployment Insurance Administration programs on which the budget is based are shown in the table below:

Workload—Unit Time Data—Disability Insurance Administration Workload Data:			
(a) State plan claims	347,290	383,000	418,600
(b) Voluntary plan claims	198,665	182,000	182,000

1959-60 Fiscal Year

During the 1959-60 fiscal year the number of state plan disability claims filed increased 13 percent over the 1958-59 fiscal year and 22 percent over the previous 1957-58 fiscal year. In the 1959-60 fiscal year improved performance permitted a decrease in cost per unit of work.

Unemployment insurance workloads remained at about the same level as for the 1958-59 fiscal year. For both fiscal years the benefit workloads were substantially less than for the recession fiscal year of 1957-58.

The employment service continued to expand its services to employers and work applicant groups. This included increased job placement and counseling service to the handicapped, veterans, youth, and older worker, parolees, and other groups requiring special assistance.

1960-61 Fiscal Year

Disability Insurance Administration budgetary requirements are established on a performance basis with the total staff determined from workload—unit time calculations. For the 1960-61 fiscal year, it is anticipated that the principal workload item of State Plan disability claims will be 10 percent higher

SUMMARY AND GENERAL ANALYSIS	ACTUAL 1959-60	ESTIMATED 1960-61	PROPOSED 1961-62

GENERAL ANALYSIS—Continued

1960-61 Fiscal Year—Continued

than actual experience for 1959-60 fiscal year. The increased amount requested for Disability Insurance Administration in the current and the budget year over the actual year is attributable to the increase in workloads. The unit time requirement for each workload unit is relatively stable over the 3-year period.

It is predicted that employment will increase during fiscal year 1960-61 but at a slower rate than in fiscal year 1959-60. Employment growth will not match labor force increases and consequently the number of unemployed will rise. The increase of 425 positions in the estimate of requirements for UI-ES administration for the 1960-61 fiscal year over the 1959-60 fiscal year is attributable to this workload increase.

1961-62 Fiscal Year

For the 1961-62 fiscal year it is anticipated that the principal workload item of State Plan disability claims will increase 9 percent over the number of claims that will be received in the 1960-61 fiscal year. Staffing estimates are based upon workload estimates in relation to actual unit time experience. Further improvements in performance are being sought through examination of possibilities for additional mechanization of operations.

The 1961-62 fiscal year Unemployment Insurance budget is based on an estimated unemployment insurance claim filing workload which is higher than the estimated workload for the current 1960-61 fiscal year. It is anticipated that if defense expenditure and credit policies are not changed, fiscal year 1961-62 should witness higher levels of unemployment than fiscal year 1960-61. As this agency operates on a performance budgeting basis the higher workload estimate results in an increase in the number of positions estimated for Unemployment Insurance—Employment Service administration for the 1961-62 fiscal year. Numerous improvements in operating procedures have been effected in the 1959-60 and 1960-61 fiscal years as a result of the employee work improvement and management appraisal programs. These savings are reflected in the estimated requirements for the 1961-62 fiscal year in both the Unemployment Insurance—Employment Service and Disability Insurance programs.

The amount included for support from the Department of Employment Contingent Fund for the fiscal year 1961-62 includes the following principal items:

1. A recurring amount for part of cost of operation of the community employment program. This program involves work with local communities in the promotion and development of employment programs and with individual employers in the development of new industrial projects. The other part of the amount required for the support of this program is paid from federal funds.
2. An amount of $156,015 for costs to the Unemployment Insurance—Employment Service program for all of the additions to the administrative pro rata charges that were added by Chapter 1844, Statutes of 1959, except charges for the Central Records Depository of the Secretary of State. This amount consists of $135,339 for the cost of the Legislature and $20,676 for the indirect imputed costs of the Central Fiscal Agencies for rent, Attorney General Services, etc. In a letter dated October 23, 1959, the Federal Bureau of Employment Security advised this agency that granted funds could not be approved for the cost of the Legislature. Funds for the imputed costs will also be requested in the first instance from regular Bureau of Employment Security administrative grants and no more will be expended from the Contingent Fund than is necessary, as determined by the action on the federal grants.

The amount of $19,000 requested from funds made available to this agency under Section 903 of the Social Security Act, as amended (Reed Act), is to provide for costs of the Department of Finance audits of the Unemployment Insurance—Employment Service program. In a previous determination the Federal Bureau of Employment Security ruled that such costs could not be paid from funds granted to this agency for administration of the Employment Security program. In view of this determination the Legislature provided in the budget acts of 1959 and 1960 for payment of the costs for the fiscal years 1959-60 and 1960-61 from funds made available to this agency under Section 903 of the Social Security Act, as amended (Reed Act). This request provides for continuation of the payment of these costs from this source of funds for the fiscal year 1961-62.

OFFICE OF THE DIRECTOR AND DEPUTY DIRECTOR

The Department of Employment is administered by the Director of Employment appointed by the Governor subject to approval of the Senate. He is responsible for all phases of the administration of the California Unemployment Insurance Code except for certain quasi-judicial functions which are the responsibilities of the Appeals Board. Two deputy directors are appointed by the Governor. One assists the director in the administration of the code and acts for the director in his absence and the other is responsible for the farm placement program.

DIVISION OF APPEALS

Objectives

The 3 members of the California Unemployment Insurance Appeals Board are appointed by the Governor for terms of 4 years and constitute the final administrative body, vested by law with the responsibility of reviewing and deciding appealed matters relating to disputed unemployment insurance and disability benefit determinations, and employer tax liability. The Appeals Board also hears appeals from rules and regulations established by the director.

Program and Performance

The Appeals Board formulates its own administrative policy and through its secretary and chief referee administers the affairs of the entire division. Area referee offices have been established in San Francisco, Sacramento, and Los Angeles. The referees staffing these offices have the primary responsibility of hearing and deciding appeals from determinations relating to unemployment insurance benefits, disability benefits, overpayments and disputed employer tax liability matters. Increases of 3 and 13 positions are anticipated in the Appeals Board and Area Referee offices, respectively, due to the estimated increase in benefit appeals workloads.

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS

Objectives

The responsibility of this division is the administration and operation of the Unemployment Insurance and Employment Service Programs.

Program and Performance

The program of the division is carried on at 3 levels, the central office, the area offices and the local and farm labor field offices.

At the central office level there are the office of the Chief of the Division; the Organization and Management Section; Employment Service, Benefit Payments, and Farm Placement Technical Sections; the Interstate Unit; and the Manpower Mobilization Unit.

The Organization and Management Section makes special studies to determine conformity of local offices with prescribed policies, standards, and methods of operation, and is responsible for planning of space and personnel needs and determination of the need for and development of procedures and standards in the general field of organization and management of the division. The technical sections provide program leadership and interpret and recommend policy. The Interstate Unit processes Interstate Unemployment Insurance claims for payment. The Manpower Mobilization Unit plans with sections and divisions involved for

DEPARTMENT OF EMPLOYMENT—Continued

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS—Continued

Program and Performance—Continued

emergency operations of the department in case of natural or man-made disaster. This unit was established March 1, 1960. It is financed through grants allocated through the United States Department of Labor by the Office of Civil and Defense Mobilization for use of all state employment security agencies in making effective the National Manpower plan.

The Occupational Analysis Field Center is located in Los Angeles but is under the direct supervision of central office. It is 1 of 5 such centers in the United States and serves as the point of analysis and processing of job analysis data gained by state employment security agencies in 11 western states. The San Diego Skill Survey Unit was established to make a special study of about 9 months' duration from April 1 to December 31, 1960. The study is financed from a special federal grant. The purpose is to project the requirements and availability of skilled manpower in the San Diego area in the next 5 years. It is under the supervision of central office.

The coastal, interior, southern, and Los Angeles metropolitan area offices direct the operation of local employment service and unemployment insurance offices and farm placement field offices. These area offices also assist in determining program needs and formulating plans to meet these needs. The southern area and Los Angeles metropolitan area offices were established as separate offices effective July 1, 1960. This was accomplished through splitting the former southern area which encompassed the geographic area now served by the 2 area offices.

Local offices provide direct services to the public in placement, testing and counseling, labor market information and payment of unemployment insurance benefits. They also provide the farm labor service where there are no separate farm labor offices. Separate farm labor offices in many localities provide direct service to the public in the placement of farm workers and preparation of farm labor market reports.

A decrease of 1 position is anticipated for the coastal area office in 1961-62 due to completion of a special study of insured employment in Contra Costa County. Increases of 5 and 131 positions are anticipated in the interstate unit and local offices, respectively, due to the estimated increase in unemployment insurance benefit workloads.

DIVISION OF ACCOUNTS AND TAX COLLECTIONS

Objectives

The Division of Accounts and Tax Collection is responsible for the proper reporting of wages and payment of contributions under the California Unemployment Insurance Code.

Program and Performance

The deputy director is the chief of this division. The division consists of a Central Office Auditing Section staff and Field Auditing Section staff under the direction of the Chief Employment Tax Auditor.

The Auditing Section carries out the uniform statewide tax auditing, compliance enforcement and collection program of the department directly with the taxpayers concerned. The section determines whether employing units are required to register and report, whether services are covered under the law and whether wages are taxable. The section also determines and verifies reported and unreported tax liability, collects delinquent amounts due, provides related advisory services, and assures compliance with relevant provisions of the California Unemployment Insurance Code.

DEPARTMENT OF EMPLOYMENT—Continued

OFFICE OF ASSISTANT DIRECTOR-COMPTROLLER

Objectives

The assistant director-comptroller advises the director and deputy director on fiscal and administrative matters and directs the Standards and Methods Section, Data Processing Section, Accounting Section, Administrative Services, and the Internal Audit Unit.

Program and Performance

The Standards and Methods Section is responsible for a continuous review of the department's organization and the co-ordination of programs, policies, and procedures. It evaluates present and future efficiency and effectiveness of existing policies, methods, and organizations. It keeps informed on all problems which require planning, seeks to develop adequate solutions, and follows up results of planning activities. It also maintains the central archives and policy files of the department.

The Accounting Section processes employer status records and contribution and earnings reports; receives and deposits remittances; maintains employer reporting and accounting controls, and reserve accounts records; reconciles the bank accounts of the various benefit programs; maintains employer and wage earner report files; recomputes insurance awards; adjusts insurance account balances; maintains fraud and overpayment records; and maintains accounts and processes documents relating to unemployment insurance and disability insurance overpayments.

The Data Processing Section establishes and maintains claim and wage record files; records and computes benefit awards; records employee and employer contributions; prepares related statistical reports; and assists in relevant fiscal operations.

Administrative Service programs are carried on at two levels; in Central Office and in the Area Business Management Units. Activities included are the Training Section which plans and directs the departmental training program; the Personnel Section which performs the personnel management activities; the Fiscal Section that handles budgetary and fiscal affairs and provides services such as typing, transcription, duplicating and mail control; the Property Unit which co-ordinates the real property acquisition work of the department and performs business management functions for the Interior Area. The Area Business Management Units in Los Angeles and San Francisco perform field work in the fiscal, personnel, property and other administrative services functions and maintain rosters of field office employees.

An increase of 10 positions is anticipated in the Accounting Section due to the estimated increase in tax, unemployment insurance and disability insurance workloads during 1961-62 fiscal year.

In the Data Processing Section, an increase of 16 positions is anticipated due to the estimated increase in tax, unemployment insurance and disability insurance workloads during 1961-62.

DIVISION OF DISABILITY AND HOSPITAL BENEFITS

Objectives

The Division of Disability and Hospital Benefits is responsible for the administration of the disability insurance program.

Program and Performance

The Central Office operation develops plans, standards and procedures, and evaluates all disability insurance claim operations.

The Claim Control Section provides claims service for the disability district offices; processes voluntary plan claim reports; supervises all voluntary plan activities for conformity with requirements of the California Unemployment Insurance Code; maintains voluntary plan files.

The 19 disability district offices, within their assigned geographical districts, evaluate first claims under state coverage for disability insurance to determine if they meet minimum standards; determine eligibility of claimants for disability insurance; prepare and issue disability insurance payments to eligible claimants; maintain all claim records for disability insurance claimants; conduct a field visit program which includes unscheduled visits to residence of claimants and visits to employers to review installation of voluntary plans for conformity with the California Unemployment Insurance Code; process and answer all correspondence with employers, claimants, doctors, institutions, and other state or governmental agencies.

The medical director formulates medical policies, programs, and standards for the disability insurance program of the department. Offices are maintained in Sacramento, Los Angeles, and San Francisco.

Increases of 5 and 40 positions are anticipated in the Claim Control Section and District Offices, respectively, due to the estimated increase in disability insurance workloads.

Department of Finance—Fairs and Expositions Division

DISTRICT AND COUNTY AGRICULTURAL FAIRS

GENERAL ANALYSIS

The State of California leads all others in the total amount of financial support given its 78 fairs and expositions which are operated by state agencies or by counties and non-profit associations receiving monies from the Fair and Exposition Fund. This fund is made up of revenues received from licensing of pari-mutuel wagering on horse racing and is distributed by fixed legislative appropriation and on the basis of need.

District agricultural associations are state agencies, created by legislative action, and established for the purpose of holding fairs, expositions and exhibitions of all the industries and industrial enterprises, resources, and products in the State with the purpose of improving, exploiting, encouraging and stimulating such production. Each association is administered by a board of 9 directors appointed by the Governor.

The California State Fair and Exposition is a state institution within the Department of Finance in Sacramento, as is the Sixth District Agricultural Association which maintains a permanent exhibit in Los Angeles. Fifty other district agricultural associations conduct district fairs; 24 counties conduct county fairs and 2 nonprofit corporations conduct citrus fruit fairs—the National Orange Show at San Bernardino and the Cloverdale Citrus Fair at Cloverdale. All the agencies conducting those fairs are required to submit annual budgets to the Department of Finance for approval with the exception of the 2 citrus fruit fairs and the Los Angeles County Fair.

The Department of Finance, through its Fairs and Expositions Division, supervises the operations of 73 of the 74 district and county fairs in California which receive financial assistance from the State. The Los Angeles County Fair and the 2 citrus fruit fairs do not come within the jurisdiction of the division.

All-year use of fairgrounds facilities has increased greatly over the past few years as buildings and grounds have been steadily improved. Interim uses include community gatherings, recreational activities, conventions, livestock sales, 4-H and Future Farmers meetings, sports events, school sessions, farm labor camps and relief headquarters in times of disaster.

A 5-year Capital Outlay program for all fairs has been formulated for the period 1960-61 to 1964-65 inclusive.

Full-time managers are employed by both district and county fairs. Other permanent employees of district agricultural associations have civil service status.

In an effort to improve the fair program the Fairs and Expositions Division co-operates in the conduct of schools of instruction for fair managers and directors; sponsors an annual conference for training of judges who officiate at fairs; holds annual meetings with Future Farmers and 4-H officials and with representatives of breed associations and exhibitors' groups to revise rules and regulations in the master premium list which details amounts that can be paid for the many classes and types of exhibits. These functions and activities are in addition to the fiscal and technical supervision by the Department of Finance over these 73 agencies.

The law does not restrict the area to be served by a district, county, or citrus fruit fair. Some of the fairs attract and encourage exhibitors from all over the State, while the exhibitors at other fairs are limited to the district or county in which the fair is conducted or to such district or county and contiguous areas.

The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

District Agricultural Associations

Revenues received by the Sixth District Agricultural Association, Los Angeles, are deposited in a special fund in the State Treasury and this association operates out of this special fund under appropriations by the Legislature. This district does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The 1-A District Agricultural Association, San Francisco, receives an annual appropriation of $250,000 and the 48th District Agricultural Association, Los Angeles, receives an annual appropriation of $125,000 under the provisions of Section 19622 of the Business and Professions Code. Neither of these associations receives an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 48 district agricultural associations receive annual allocations under Section 92 of the Agricultural Code on the basis of premiums paid at their respective fairs.

County Agricultural Fairs

The majority of the county fairs are conducted by nonprofit associations acting as agents of the respective boards of supervisors under the provisions of Government Code Section 25905, and receive allocations under the provisions of Section 92 of the Agricultural Code. In a few cases fairs are conducted directly by the county.

The Los Angeles County Fair is conducted under the provisions of Section 25906 of the Government Code. The County of Los Angeles receives an annual appropriation of $250,000 for support of the fair under the provisions of Section 19622 of the Business and Professions Code. The county does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 23 counties which receive funds for the encouragement of agricultural fairs receive allocations under the provisions of Section 92 of the Agricultural Code.

Citrus Fruit Fairs

Citrus fruit fairs receive an allocation under the provisions of Section 19626 of the Business and Professions Code.

The National Orange Show, a nonprofit corporation, receives an annual allocation of $150,000 from the 5 percent of the first balance of the Fair and Exposition Fund which is appropriated for the encouragement of citrus fairs under the provisions of Section 19626 of the Business and Professions Code.

The Cloverdale Citrus Fair, a nonprofit corporation, receives an annual allocation of $30,000 from that portion of the 5 percent of the first balance of the Fair and Exposition Fund which exceeds the amount which may be allocated to the National Orange Show under the provisions of Section 19626 of the Business and Professions Code.

Allocation of State Funds

Sections 19622, 19626, 19626.1, 19627, and 19630 of the Business and Professions Code provide that part of the revenue received from pari-mutuel wagering on horse racing shall be used for the support and encouragement of and capital outlay at district and county agricultural fairs and citrus fruit fairs. A statement showing the distribution of the Fair and Exposition Fund appears in the Capital Outlay Section of the budget on page 814.

Section 19622 makes annual appropriations to district and county agricultural fairs as follows:

Support of the Los Angeles County Fair________	$250,000
Support of 1-A District Agricultural Association	250,000
Support of 48th District Agricultural Association	125,000

Section 19626 provides that 5 percent, but not more than $180,000 of the balance remaining after deducting certain appropriations shall, subject to statutory limitations, be paid to citrus fruit fairs. Section 19627 provides that 40 percent, but not more than $4,680,000, of the first balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.

Section 19630 of the Business and Professions Code appropriates $2,250,000 annually from the remaining balance of the Fair and Exposition Fund for capital outlay purposes at county, district, and citrus fruit fairs. These funds are allocated by the Director of Finance upon approval of the State Public Works Board. The State Fair, the 1-A, Sixth and 48th District Agricultural Associations, and the Los Angeles County Fair are not eligible to receive allocations from this appropriation.

Apportionments under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code have been forwarded to each fair in January of the year following the fair on which such allocations are based. These funds have been included in the balance of funds available for operation in the year in which the fair was held. Starting with the 1960-61 fiscal year the funds to be apportioned are allocated and forwarded to the fairs monthly from current revenue paid into the Fair and Exposition Fund.

The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are apportioned on the basis of premiums paid. The maximum amount which may be apportioned to any one fair during any fiscal year is limited to the amount required on the basis of need as determined by the Department of Finance, but not to exceed $65,000.

The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their pro-

Allocation of State Funds—Continued

posed premium lists for review by the Fairs and Expositions Division before the premium lists are printed. The proposed premium lists are reviewed to determine whether they comply with the master premium list and to determine the suitability of the proposed offerings for the individual fair.

Fairs Allocation and Classification Committee

Under the provisions of Section 92.7 of the Agricultural Code as amended in 1959, the Fairs Allocation and Classification Committee was established consisting of 7 Members of the Senate and 7 Members of the Assembly. The committee is authorized to investigate, study, and analyze any or all facts and matters relating to the operation and financing of the 71 district and county fairs which receive or are eligible to receive funds allocated under the provisions of Section 19627 of the Business and Professions Code. The committee is required to report to the Legislature at the commencement of each regular session and to include in such reports its recommendations, if any, as to necessary or desirable legislative action. The provisions of the Joint Rules of the Senate and Assembly apply to the committee.

Department of Finance—Fairs and Expositions Division

1st DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the California Spring Garden and Home Show at Oakland)

GENERAL ANALYSIS

Present activities of this association date from 1937. Annual flower shows are conducted in the Oakland Civic Auditorium and adjacent grounds. The 1960 show was held April 30th to May 8th. The 1961 show is to be held April 22d to April 30th.

1-A DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Grand National Livestock Exposition and Grand National Junior Livestock Exposition at San Francisco)

GENERAL ANALYSIS

The 1-A District Agricultural Association was organized in 1931, and conducts 2 livestock shows each year at the Cow Palace, located on the boundary of San Francisco and San Mateo Counties. The Grand National Livestock Exposition featuring livestock, a horse show and a rodeo, is conducted in the fall and the Grand National Junior Livestock Exposition for junior exhibitors is conducted in the spring. The 1960 Grand National Livestock Exposition was conducted from October 21st to 30th. The 1961 dates are October 27th to November 5th. The 1960 Grand National Junior Livestock Exposition was conducted April 9th to 13th. The 1961 dates are March 25th to 29th. The Cow Palace is used and is well suited for larger interim event rentals.

GENERAL ANALYSIS

The association was formed in 1922 and has sponsored the San Joaquin County Fair since 1936. Prior to that time, the history of the fair is traceable back to 1860. The fairgrounds site consists of 189 acres located in the City of Stockton. The County of San Joaquin gift-deeded approximately 70 acres of this to the State and an extensive grounds improvement and construction program is nearly completed. Racing with parimutuel wagering has been a continuing feature of the fair. The 1960 fair was conducted from August 18th to August 27th. Fourteen thousand eight hundred sixty-six exhibits entered by 2,085 exhibitors were judged at the fair. The 1961 fair dates are August 17th to August 26th.

15th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Kern County Fair at Bakersfield)

GENERAL ANALYSIS

The association was originally formed in 1925 and reorganized in 1929. However, present activities date from October 1937. Annual fairs are conducted on property leased from the County of Kern located south of Bakersfield. The lease expires in March 1988. The 1960 fair was held September 26th to October 2d and consisted of livestock exhibits and other general agricultural products. Eight thousand one hundred forty-seven exhibits entered by 2,312 exhibitors were judged at the fair. The 1961 fair dates are June 9th to June 17th.

16th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the San Luis Obispo County Fair at Paso Robles)

GENERAL ANALYSIS

The association was formed in January, 1942. However, a fair was not conducted until 1946. Annual fairs are held on the association's fairgrounds adjacent to the City of Paso Robles. The 1960 fair was conducted August 17th to August 21st and consisted of general livestock and other exhibits. Six thousand one hundred sixty-three exhibits entered by 1,480 exhibitors were judged at the fair. The 1961 fair dates are August 16th to August 20th.

21st DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Fresno District Fair at Fresno)

GENERAL ANALYSIS

Present activities of the district date from 1934. Annual fairs are conducted on the association's fairgrounds leased from the County of Fresno and located just outside the City of Fresno. The lease expires in 1998. Racing with parimutuel wagering has been a continuing feature of the Fresno District Fair. The 1960 fair was conducted from October 6th to October 16th. Thirteen thousand seventy-six exhibits entered by 2,330 exhibitors were judged at the fair. The 1961 fair dates are October 5th to October 15th.

22d DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Southern California Exposition at Del Mar)

GENERAL ANALYSIS

The present activities of the 22d District Agricultural Association date from 1933. Annual shows are conducted on the association's fairgrounds located at Del Mar consisting of general livestock and other exhibits and a national horse show. In 1936 an agreement was entered into with the Del Mar Turf Club granting a franchise for the purpose of conducting racing meets on association grounds. The rental is based on a percentage of parimutuel wagering during the race meets. In 1954 a subfranchise agreement was entered into between the Del Mar Turf Club and Operating Company, Incorporated, for the conducting of race meetings.

The 1960 fair was conducted from June 24th to July 4th. Fourteen thousand three hundred six exhibits entered by 2,840 exhibitors were judged at the fair.

30th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Tehama County Fair at Red Bluff)

GENERAL ANALYSIS

The present activities of the association date from 1936. Annual fairs are conducted on the association's fairgrounds, located just outside the City of Red Bluff, leased from the County of Tehama at a rental of $10 per year. In addition, the association owns 8 acres adjacent to the leased property. The lease expires in 1998. The 1960 fair was held August 4th to August 6th and consisted of general livestock and other exhibits. Five thousand nine hundred seventy-two exhibits entered by 967 exhibitors were judged at the fair. The 1961 fair dates are August 3d to August 5th.

33d DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the San Benito County Fair at Hollister)

GENERAL ANALYSIS

Present activities of the association date from 1937. Annual fairs are conducted on the association's grounds known as Bolado Park located approximately 8 miles from the City of Hollister. San Benito County Fair is also conducted on these grounds. The 1960 fair was held from September 30th to October 2d and consisted of general livestock and other exhibits. The rather large nonfair revenues and expenditures as shown belo are due to the fact that the association operates, on a year round basis, a swimming pool, picnic area, barbecue area, an other facilities. Three thousand six hundred four exhibits entered by 797 exhibitors were judged at the 1960 fair.

35-A DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Mariposa County Fair at Mariposa)

GENERAL ANALYSIS

The association was organized in 1939. Annual fairs are conducted on the association's fairgrounds located approximately 2 miles from the City of Mariposa, partially owned by the association and partially under a 50-year lease. The 1960 fair was conducted from September 3d to September 5th. Three thousand five hundred thirty exhibits entered by 465 exhibitors were judged at the fair. The 1961 fair dates are September 2d to September 4th.

37th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Santa Barbara County Fair at Santa Maria)

GENERAL ANALYSIS

The present activities of the association date from 1929. Annual fairs are conducted on fairgrounds leased from the City of Santa Maria at an annual rental of $350. The lease expires in 1966; however, there is an option of renewal for an additional 15 years. The 1960 fair was conducted July 20th to July 24th. Six thousand two hundred four exhibits entered by 1,214 exhibitors were judged at the fair. The 1961 fair dates are July 26th to July 30th.

45th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the California Midwinter Fair at Imperial)

GENERAL ANALYSIS

The association was organized in 1921. No information on activities is available prior to 1930. Annual fairs are conducted on association fairgrounds located in the City of Imperial and leased from the County of Imperial at an annual rental of $5. The lease expires in 1987. The 1960 fair was conducted from February 26th to March 6th. Five thousand eight exhibits entered by 1,657 exhibitors were judged at the fair. The 1961 fair dates are March 3d to March 12th. In view of the fact that fairs are held early in the year, the association has adopted a fiscal year ending June 30th for accounting purposes.

48th DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Great Western Livestock Show and Great Western Dairy Show at Los Angeles)

GENERAL ANALYSIS

The association was organized in 1935. Annual fairs are held on the association's property located in the central manufacturing district of East Los Angeles. The Great Western Dairy Show, featuring dairy animals and dairy products, is conducted in the late spring of each year. The Great Western Livestock Show, featuring breeding and fat market animals, is conducted in the late fall. In 1960 the Great Western Dairy Show was held May 25th through the 30th and the Great Western Livestock Show November 16th through the 22d. The dates for the 1961 shows are May 25th through 30th for the Great Western Dairy Show and November 15th through 21st for the Great Western Livestock Show.

52d DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Sacramento County Fair at Sacramento)

GENERAL ANALYSIS

The association was formed in 1948 pursuant to amendments to the Agricultural Code passed in 1947. The association succeeded to the activities of the Sacramento County Fair held at the City of Galt on county fairgrounds since 1937. Since 1954, fairs have been conducted on the grounds of the California State Fair due to abandonment of association grounds in Galt. The 1960 fair was conducted June 16th to June 19th. Four thousand seven hundred fifty-eight exhibits entered by 1,550 exhibitors were judged at the fair. The 1961 fair dates are April 15th to April 23d, at which time the district will co-sponsor the Spring Festival with the California State Fair and Exposition.

ALAMEDA COUNTY FAIR

(Conducting the Alameda County Agricultural Fair at Pleasanton)

GENERAL ANALYSIS

The present activities of the fair date from 1939. Annual fairs are held on the association's fairgrounds located in the City of Pleasanton and feature horse races on the old Pleasanton race track in addition to general livestock and other exhibits. The 1960 fair was conducted from July 3d to July 17th. Twelve thousand five hundred five exhibits entered by 2,538 exhibitors were judged at the fair. The 1961 fair dates are July 2d to July 16th. Fairs are conducted by the Alameda County Fair Association under a contract with the county under the provisions of Section 25905 of the Government Code.

BUTTE COUNTY FAIR

(Conducting the Butte County Fair at Gridley)

GENERAL ANALYSIS

Sponsorship of the fair by the County of Butte dates from 1938. Early fairs were held by the Paradise Fair and Apple Show Association at Paradise, California. Since 1940, fairs have been held at Gridley on the county's fairgrounds by the Butte County Fair Association under agreement with the board of supervisors under the provisions of Section 25905, Government Code. The 1960 fair was conducted from August 25th to August 28th and consisted of general livestock and other exhibits. Five thousand seven hundred fifty-four exhibits entered by 553 exhibitors were judged at the fair. The 1961 fair dates are August 24th to August 27th.

HUMBOLDT COUNTY FAIR

(Conducting the Humboldt County Fair at Ferndale)

GENERAL ANALYSIS

The fair is held under the direction of the board of supervisors who appoint directors to manage the operation of the fair. In the past, these directors have been men from the membership of the Humboldt County Fair Association, an organization founded in 1897 and which has assisted or conducted county fairs each year since that time with the exception of the war-years period. Annual fairs are conducted at the county fairgrounds located in the City of Ferndale. The 1960 fair was conducted from August 15th to August 21st and featured general livestock and other exhibits with particular emphasis on dairy cattle and sheep. Four thousand four hundred twenty-nine exhibits entered by 842 exhibitors were judged at the fair. The 1961 fair dates are August 14th to August 20th. For many years a feature of the show has been horse racing and pari-mutuel wagering.

LOS ANGELES COUNTY FAIR

(Conducting the Los Angeles County Fair at Pomona)

GENERAL ANALYSIS

The fair is conducted by the Los Angeles County Fair Association under an agreement with Los Angeles County under the provision of Government Code, Section 25906. The Los Angeles County Fair Association was incorporated as a nonprofit corporation in 1940 and succeeded to the Los Angeles County Fair, a nonprofit stock corporation, at that time. Los Angeles County receives allocations for conducting the fair under the provisions of Section 19622 of the Business and Professions Code and under its agreement with the Los Angeles County Fair Association, reimburses the association for expenditures to the extent of the state appropriations. The Department of Finance does not have any jurisdiction over the activities of the fair other than annual audit examinations by the Audits Division of the department. The 1960 fair was conducted from September 16th to October 2d.

MARIN COUNTY FAIR

(Conducting the Marin Art and Garden Fair at Ross)

GENERAL ANALYSIS

Marin County Fair activities date from 1948. Annual garden shows have been held since that year under a contract between the Marin County Board of Supervisors and the Marin Art and Garden Center, Incorporated, under the provisions of Section 29505 of the Government Code. These garden shows have been held on property owned by the corporation located in the City of Ross. The 1960 fair was held from June 30th to July 4th. Seven hundred seventy-two exhibits entered by 253 exhibitors were judged at the fair. The 1961 fair dates are June 30th to July 4th.

PLUMAS COUNTY FAIR

(Conducting the Plumas County Fair at Quincy)

GENERAL ANALYSIS

The present activities of the fair date from 1940. Annual fairs are held by the Plumas County Fair Association under a contract with the board of supervisors under provisions of Government Code, Section 25905, on county fairgrounds partially owned by the county and partially leased from the United States Forest Service under a lease expiring in 1965, located just outside the City of Quincy. The 1960 fair was conducted from August 10th to August 14th and consisted of general livestock and other exhibits. Three thousand five hundred nine exhibits entered by 900 exhibitors were judged at the fair. The 1961 fair dates are August 9th to August 13th.

There is no charge for admission, but the county contribution is partially based on the actual attendance during the fair.

RIVERSIDE COUNTY FAIR

(Conducting the Riverside County Fair and National Date Festival at Indio)

GENERAL ANALYSIS

Sponsorship of the fair by Riverside County dates from 1938. Annual fairs are held on the county's fairgrounds located just outside the city limits of Indio by an advisory committee appointed by the board of supervisors. The particular feature of the fair has always been the date exhibits, but has included livestock and other general exhibits. The 1960 fair was conducted from February 12th to February 22d. Six thousand six hundred twenty-five exhibits entered by 2,182 exhibitors were judged at the fair. The 1961 fair dates are February 17th to February 26th.

SAN BENITO COUNTY FAIR

(Conducting the San Benito County Saddle Horse Show and Fair at Hollister)

GENERAL ANALYSIS

The present activities of the fair date from 1937 although private shows were held prior to that date from 1927. Annual fairs are held by the San Benito Saddle Horse Association under a contract with the county under the provisions of Government Code, Section 25905, at Bolado Park located about 8 miles from the City of Hollister and owned by the 33d District Agricultural Association. The 1960 fair was conducted from June 24th to June 26th and, as in the past, featured light horse exhibits and a horse show.

SAN MATEO COUNTY FAIR

(Conducting the San Mateo County Fair and Floral Fiesta at San Mateo)

GENERAL ANALYSIS

Sponsorship of the fair by the County of San Mateo dates from 1929. Annual fairs are held on county fairgrounds located just north of Bay Meadows race track, San Mateo, by the San Mateo County Fair Association under a contract with the board of supervisors under the provisions of Section 25905, Government Code. In the past, annual fairs have featured floricultural and agricultural exhibits and some junior livestock exhibits. A particular feature has been a horse racing meeting conducted on Bay Meadows race track under a contract with the California Jockey Club. The 1960 fair was conducted from August 5th to August 13th. Three thousand seven hundred eighty-six exhibits entered by 1,259 exhibitors were judged at the fair. The 1961 fair dates are August 4th to August 12th.

SHASTA COUNTY FAIR

(Conducting the Intermountain Fair of Shasta County at McArthur)

GENERAL ANALYSIS

Sponsorship of the Shasta County Intermountain Fair by the County of Shasta dates from 1936. Annual fairs are held on the county's fairgrounds located at McArthur by the Intermountain Fair Association under a contract with the board of supervisors under the provisions of Section 25905, Government Code. The 1960 fair was conducted from September 3d to September 5th and consisted of general livestock and other exhibits. Five thousand three hundred seventy exhibits entered by 629 exhibitors were judged at the fair. The 1961 fair dates are September 2d to September 4th.

No admission is charged at this fair.

SOLANO COUNTY FAIR

(Conducting the Solano County Fair at Vallejo)

GENERAL ANALYSIS

Activities of the fair date from January 1946, although no allocations were received by the association under Section 92 of the Agricultural Code until 1950. Annual fairs are conducted on approximately 150 acres of land north of the City of Vallejo by the Solano County Fair Association under agreements with the board of supervisors under the provisions of Section 25905 of the Government Code. A particular feature of the fair has been a race meeting with parimutuel betting. The 1960 fair was held from June 22d to July 2d and consisted of general livestock and other exhibits. Four thousand nine hundred sixty-nine exhibits entered by 894 exhibitors were judged at the fair. The 1961 fair dates are June 21st to July 1st.

SONOMA COUNTY FAIR

(Conducting the Sonoma County Fair at Santa Rosa)

GENERAL ANALYSIS

Present activities of the fair date from 1937. Annual fairs are held on the fairgrounds located in the City of Santa Rosa by the Sonoma County Fair Association, Inc., under an agreement with the board of supervisors under the provisions of Section 25905, Government Code. Horse racing with parimutuel betting has been a major feature of the annual show. The 1960 fair was conducted from July 21st to July 30th and consisted of general livestock and other exhibits. Eight thousand two hundred fifteen exhibits entered by 1,929 exhibitors were judged at the fair. The 1961 fair dates are July 19th to July 29th.

TRINITY COUNTY FAIR

(Conducting the Trinity County Fair at Hayfork)

GENERAL ANALYSIS

Annual fairs are conducted on the county fairgrounds located at the City of Hayfork by an executive committee appointed by the county board of supervisors. The County of Trinity has executed a 4-year lease with the Trinity County High School District to use part of the fair facilities for a high school during the school term. The 1960 fair was conducted from August 19th to August 21st and consisted of livestock and other exhibits. Five thousand nine hundred fourteen exhibits entered by 761 exhibitors were judged at the fair. The 1961 fair dates are August 18th to August 20th.

CLOVERDALE CITRUS FAIR

(Conducting the Cloverdale Citrus Fair at Cloverdale)

GENERAL ANALYSIS

This fair receives an annual state allocation under Section 19626 of the Business and Professions Code, the first such allocation being made in 1945. The Cloverdale Citrus Fair was incorporated as a nonprofit organization in 1951, prior fairs having been conducted by the Cloverdale Chamber of Commerce. Operations of the Cloverdale Citrus Fair do not come under the supervision of the Department of Finance other than through audit examinations conducted by the Audits Division of the department. Annual shows, featuring citrus displays, are conducted in the association's pavilion located in the City of Cloverdale. The 1960 show was held from February 19th to February 22d.

NATIONAL ORANGE SHOW

(Conducting the National Orange Show at San Bernardino)

GENERAL ANALYSIS

The National Orange Show was incorporated in 1922 and is a continuation of a nonprofit association with some modifications formed in 1910. It appears that the early history of citrus fairs in San Bernardino can be traced back to 1879. The association receives an allocation under the provisions of Section 19626 of the Business and Professions Code but does not come under the jurisdiction of the Government Code or other codes pertaining to state organizations, its actions being governed by the Corporations Code. The only jurisdiction the Department of Finance has of the activities of the association pertains to an annual audit to determine that the appropriations have been used for the general purposes provided by the statutes. Under the provisions of Section 94.6 of the Agricultural Code the National Orange Show is required to file with the Department of Finance by January 20th each year, a statement of operations in the previous calendar year. Annual fairs are conducted by the association on grounds owned by the association and located in the City of San Bernardino. The 1960 show was held from April 28th to May 8th. The 1961 show dates are April 20th to May 7th.

Salaries and Wages

INTRODUCTION

The budget of each agency carries a summary of positions now authorized and full detail on all proposed new positions. Detailed data on staffing of state agencies, pay-scales, salary and wage payments for existing positions are presented in this supplement. The division has been made to (1) provide a clearer picture of the service programs of each agency and to reduce the amount of detail in the budget document, and (2) consolidate all essential detail on individual positions, pay-rates and salary and wage disbursements in a separate document.

Positions authorized in each of the operating agencies on July 1, 1960, are listed by official class titles in the following pages. Salary ranges, as outlined below, and total salary and wage requirements in the 1961-62 fiscal year for authorized positions are given. Data on positions and expenditures in 1959-60 and 1960-61 are also shown for purposes of comparison. A descriptive summary of position titles, position count, salary ranges in state service and for instructional positions in the University of California, colleges and special schools, and the State's plan for merit salary adjustments with the established ranges is presented below.

Position Titles

In this supplement, positions included in the state civil service have been set forth under the official class titles established therefor by the Personnel Board. Positions exempt from civil service, except those of the University of California, have been listed by the departmental titles as set forth on the official roster of employees maintained by the State Controller under the central pay installation. Positions of the University of California are shown by official class titles established under the by-laws and standing orders of the regents.

Positions Now Authorized

In general, the positions included under this heading are those which were established as of July 1, 1960, together with those for which funds were provided in the 1960-61 Fiscal Year Budget or otherwise authorized as of that date. Amounts shown for positions now authorized represent actual salary payments for 1959-60 and estimated salary payments during 1960-61 and 1961-62, assuming full-year employment, unless the position is estimated to be established materially later than July 1. In such cases only the cost from date of establishment is shown and the positions are so noted.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporary "down-grading" are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, $415–556, (b) junior-intermediate clerk, $281–395.

Positions authorized temporarily until June 30, 1961, are included under "Positions Now Authorized" for 1960-61. These positions are identified by footnote and if extended into 1961-62 are shown as "Proposed New Positions" in the budget for the agency.

Number of Positions

Positions in 1959-60 are counted to the nearest tenth of actual full-time and full-year employment, except for members of boards and commissions.

Authorized positions for 1960-61 and 1961-62 are counted to the nearest tenth of full-time. Full-time positions authorized to start later than July 1 are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

Salary Range

Rates of pay listed under this heading represent salary ranges established by (1) the State Personnel Board for civil service, state college, and maritime academy classifications; (2) the appointing authority with the approval of the Director of Finance for certain exempt positions; (3) statute; or (4) the Regents of the University of California.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than $10. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, $281–341 indicates a monthly salary range having steps of $281–$295–$310–$325–$341. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth on page 4.

Salary ranges for academic positions in the University of California are set forth on page 5.

Schedule of Salary Ranges in Use in the State Service

Range No.	Steps				
21	$268	$281	$295	$310	$325
22	281	295	310	325	341

Salary Schedule for Instructional Positions—State Colleges

(Based Upon Salaries in Effect November 1, 1960)

	ACADEMIC		
RANK[a]	CLASS I[b]	CLASS II[c]	VOCATIONAL
Assistant	$4,860– 5,364	–	–
Instructor	5,628– 6,840	$5,916– 7,176	–
Junior instructor[d]	5,628– 6,840	5,916– 7,176	$5,628– 6,840
Assistant professor[d]	6,204– 7,536	6,516– 7,920	–
Intermediate instructor[d]	6,204– 7,536	6,516– 7,920	6,204– 7,536
Associate professor	7,536– 9,156	7,920– 9,612	–
Senior instructor[d]	7,536– 9,156	7,920– 9,612	7,920– 9,612
Professor	9,612–11,688	10,092–12,276	–
Principal instructor	9,612–11,688	10,092–12,276	10,092–12,276

[a] Budgetary limitations on appointment to each range are 15 percent to 20 percent for instructor or below, 25 percent to 35 percent for assistant professor, 20 percent to 25 percent for associate professor, and 25 percent to 35 percent for professor, of total authorized teaching positions.

[b] Persons whose academic or professional preparation is equivalent to a college degree.

[c] Persons whose academic or professional preparation is equivalent to a doctor's degree.

[d] Instructors and vocational instructors receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

Salary Schedule for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A	$481	$505	$530	$556	$584
B	505	530	556	584	613
C	530	556	584	613	644
D	556	584	613	644	676
E	584	613	644	676	710
F	613	644	676	710	745

CRITERIA FOR RANGE DETERMINATION	ACADEMIC (Preparation)	VOCATIONAL (Preparation)
Range A	Provisional or special credential, without bachelor's degree.	—
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.	—
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.	Three years experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular general secondary credential.	Qualification for special secondary Vocational Class A Credential in T and I and PS Education.
Ranges E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least six units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

* Designation of specialty completes classification title.

[a] Usual period at salary is 1 year.

[b] Usual period at salary is 2 years.

[c] Usual period at salary is 3 years.

[d] Usual period at salary not specified and used in special cases only.

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in a position in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard" until he reaches the maximum rate.

All employees in salary ranges with a maximum step of $376 and below and who have received permanent appointments may receive an increase from the first step to the second step of their salary range upon completing six months of qualifying service as defined by Personnel Board rules. In addition, employees in salary ranges with a maximum step of $395 to and including $505 may receive a similar salary adjustment when the predominant recruitment source is from outside state service. This same adjustment may be granted to employees in classes with salary ranges not exceeding $584 where acute recruitment difficulty is experienced.

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustments opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Merit salary adjustments for employees of the University of California are determined in accordance with rules established by the Regents.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trades employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the State also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the State does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 11 holidays a year. Printing trades employees are provided the eight paid holidays received by their counterparts in private industry.

The salary ranges shown are those in effect on July 1, 1960, for the University of California and on November 1, 1960, for all other agencies. Salaries and wages expenditures for both the 1960-61 and 1961-62 fiscal years reflect these rates of pay. Statutory salaries are provided for at the rates in effect during the 1960-61 fiscal year.

---

[a] Three junior-intermediate clerk positions, 2 in test arrangements and 1 in mail unit, were identified in 1960-61 Budget to be abolished due to increased efficiency available through the purchase of equipment. However, since the equipment is not yet on the market these positions could not be abolished and are continued in this budget.
